

3 STEPS TO GET RIDING:

Read the warnings located on your board and at the beginning of the manual. Find a flat, open area with smooth pavement for your first ride. Always wear a helmet.

1. POWER ON AND OFF

Press the Multi-Button/Power Button for 2 seconds.

2. THE REMOTE

Hold the Engage Button to activate the motor. Roll the Throttle Wheel forward to accelerate. Roll the Throttle Wheel backward to brake and reverse.

3. RIDE TIPS

- Keep a wide stance on the board.
- Keep a low center of gravity.
- Move the Throttle Wheel in small increments.
- Lean forward when accelerating.
- Lean backwards when braking.
